CU Range Toilet Cubicles

Our CU Toilet Cubicle Range is a anti-vandal robust system suitable for high-traffic and tough environments with high rates of wear and tear. For example school WC's, shopping centres, public WC's and swimming pools. Due to the ease at which this system can be cleaned it is also ideal for areas where hygiene is essential such as the hospital and the wider healthcare market. The panels we use are 12.7mm Trespa Apra. They can be used as either standard toilet cubicles or shower cubicles.

This system is manufactured bespoke to your measurements to ensure it fits first time. We will provide you with a Drawing for Approval before manufacture takes place to ensure all the details are correct.

Advantages of the CU System

- 10 Year Guarantee
- Anti-vandal
- Delivered ready to install
- Easy to install: no site cutting required
- Totally impervious to water or moisture
- Class O fire rated
- Non odour absorbent
- Very easy to maintain and clean
- Most graffiti removable with detergents
- Will not harbour any biological growth
- Environmentally friendly (due to long life of product plus being constructed from natural & recyclable products)
- Fully water and rust proof SAA fittings

Highly Recommended for

- Areas that are designed with quality & longevity in mind
- Schools WC's
- Healthcare
- Prison toilet and showers
- Shower Areas
- Public WC's
- Swimming Pools
- Hospitals
- Pubs

Standard Panel Dimensions

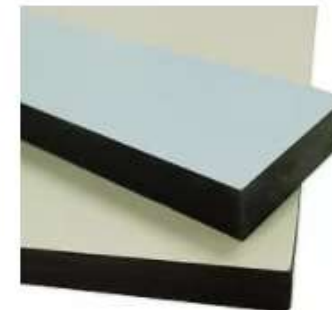

Panel Material

Compact Grade Laminate

CGL is a 13mm thick self supporting material constructed from multiple layers of kraft paper. The kraft paper is reinforced by thermosetting resins under high pressure & temperature to produce a totally waterproof, high density, tough & hygienic panel. The panels we use are 12.7mm Trespa Apra.

The panels are one piece material with a black core meaning no edging is required. The typical edge finish is a polish & 1mm chamfer to the leading edge.

Due to the excellent qualities of this material we use it for through out our CU Range products which come with a 10 year guarantee against standard failure on all CGL panels.

Cubicle Fittings

Heavy Duty Satin Anodised Aluminium
